

### Activity Making a Travel Suitcase (about 45 minutes)

After making a passport we make a **Travel Suitcase** to put in your new passport. Students can use the suitcase to put in their newly made passports and other materials they made or used during the English Camp.

Preferably we should **use thicker A3 paper** to ensure the suitcase is big enough. Teacher/assistants, if you start your preparations in time, you could surely find a printer that can print the suitcase pdf document in A3 format.

However, if you do not have the facilities to print on A3 paper, you can use an A4 size.

The suitcase then becomes quite small and can be used to put in the passport, folded documents, and smaller items as a souvenir.

Provide scissors, glue, and then let the children cut the suitcase according to the clear instructions on the pdf document. You'll find the printable documents separate after closing this one.

Have fun with making the Travel Suitcase!
