**The Chicken Dance**

## **The Chicken Dance**

Although it's already rather old, children and adults still love the Chicken Dance.

We couldn't obtain a 100% quality video, but we still wanted 'The Chicken Dance to be a part of our English Camp program.

So, we added the best videos available.

Look which one you want to use.

To make things easier, we advise you teach the dance to a small group of students before the event starts. During the camp they first show how the dancing is done and the students in the audience can learn it in no time.

After that, start the video again and you'll see that everybody can do it.

To make things looking more real, you could let the children make the chicken mask that we added first.

Have a lot of fun with the Chicken Dance!
